Al-Aqsa M. Schools & Kindergartens

Dear Brothers on the sake of Allah \

Before we point out the core of this project, We would be happy to give you an idea about Al-mojama'a Al-Islami and its educational institution Al-Aqsa M. Schools & Kindergartens.

Al-mojama'a Al-Islami was established on 1978 and initially started its activities as a mosque. It afterward developed to practice religious appeals and educational, cultural, and sport activities.

On 1982, we thought we should more focus on the educational part for its deep effect on the preparation process of a faithful generation that can lead to the demanded change. But Israeli occupation prevented us of accomplishing the project.

On 1992, we managed, upon the sincere effort of faithful people, to establish the Islamic kindergarten under secrecy circumstances. It worked to 1995 until the dream of Islamic Modality School that adapts the Islamic Education and moral came true.

It was then the beginning of the great and unprecedented Islamic project of Al-Aqsa M. Schools & Kindergartens. Recently, our schools and Kindergartens are the institutions at which all seek to enroll their son descendants. We thus have more than 1500 Muslim child and pupil that have been learning religious and civil studies in our five institutions:

Al-Aqsa M. School – Boys  
Al-Aqsa M. School – Girls  
Bara'em Al-Aqsa Kindergarten  
Bara'em Al-Iman Kindergarten  
Al-Kawthar Kindergarten

After our successful experience, we have been thinking of the memorization of the holy Quran. By this initiative, we are trying to get integrated activities that cover all aspects that should be offered for the young generation in the holy Land.

# The early beginning

Al-Mojama' Al-Islami – Gaza strip was one of the most important good omens and signs of the Islamic conciseness within the 70s for it started as an institution with its own message and program that reflects a modern and totalitarian understanding for Islam.

Remarkably, the dash was a result of deep concern and looking for better tomorrow for the Muslim nation.

As a result of that, the Al-Mojama' Al-Islami was established in 1973 and it's only the spark since the faithful young men started working and at he same time holding the everlasting motto: (ISLAM is the SOLUTION).

Al-Mojama' Al-Islami branch in Khanyounis (southern area of Gaza strip) was established on 1978 as a result of the continuos and intensive effort of the faithful Muslim young men. But Jewish authorities kept trying, by preventing finalizing the building that was to contain a multi activities center beside an Islamic School, to kill this pure and blessed effort.

The activities started to be carried out and continued in 1992.
